

SEX OFFENDERS ON SCHOOL PROPERTY

Pursuant to Wyoming Statute §6-2-320, effective July 1, 2010, registered sex offenders requesting permission to be on school property, in any school building, or at a school event under conditions not otherwise allowed by Wyoming Statute, are required to have written permission by the District. Registered sex offenders seeking written permission to be on school property, in any school building, or at a school event, are required to submit form (KIB-E) to the appropriate school principal no later than three (3) school days in advance of the date he/she is requesting such access.

A written reply to this written request will, if possible, be given prior to the requested date. Only the Superintendent may grant permission for this request after consulting with the appropriate principal.

The District shall inform its staff, students or the parents of minor students by notice published annually by the school district either by including such notice with annual notices published in the local newspaper or by other notice directly provided to staff, students or the parents of minor students that the staff, students or the parents of minor students can obtain information regarding sex offenders either employed by the school district or attending a school at the school district by contacting local law enforcement (police or sheriff's department) having jurisdiction over the school campus as set forth in Wyoming Statute §7-19-303(h). This notice shall also include a link to the Wyoming Sex Offender Registry website: <http://wysors.dci.wyo.gov/sor/>

If a suspected registered sex offender is seen on or nearby school property, in any school building, or attending a school event, any staff member or community member may immediately inform the appropriate principal, classified supervisor or administrator. When the principal, classified supervisor or administrator receives information that a suspected registered sex offender may be on or nearby school property, in any school building, or attending a school event, he/she will attempt to determine whether the person seen is actually a registered sex offender and if so, if written permission has been received pursuant to this policy. If the individual is reasonably suspected to be a registered sex offender, or if a determination cannot be made in a reasonable amount of time, law enforcement shall be notified and law enforcement shall determine if the individual is in violation of Wyoming Statute §6-2-320. If circumstances require immediate action, the suspected registered offender may be immediately asked to show identification and/or proof of written permission as provided for in this policy by the principal or administrator and then, if appropriate, promptly directed to leave school property. Law enforcement will determine if the registered sex offender is in violation of parole or probation conditions.
